

Serial No. 10/598,472
Filed: August 31, 2006
Page 3 of 3

Examiner: Lee D. Wilson
Group Art Unit: 3723

REMARKS

By the present amendment, the title has been amended to delete the turn "cyclonic" from the title to conform the title to the broadest claims in the application. As the Examiner will note, claim 1 and a good many of the dependent claims are not limited to a cyclonic vacuum module. It is therefore believed that the amendment to the title of the application is appropriate.

Entry of the amendment is respectfully requested.

Respectfully submitted,

MICHAEL F. BEST
